Revd File No. 91 of 192 .

Serial No.

The Es. recommends the deputation of Asst. Surgeons, Messrs H.C. Deva Raj, and B. Jayaram Naidu to Europe the first for training in x-ray work, the second for training in the Surgery of the Thorax.

The deputation of Messrs H.C. Deva Raj, and A Raghubir Singh to Dehra Dun next year for x-ray work training has already been sanctioned, and the Es. has been asked to provide for the expenditure on this account in the next years budget

Flag D.

The present proposal of the Es. is for orders. He has not mentioned the source from which the cost may be met. There is no provision in the Current years budget.

This may perhaps be considered at budget time.

Office of the Senior Surgeon in Mysore, Bangalore,

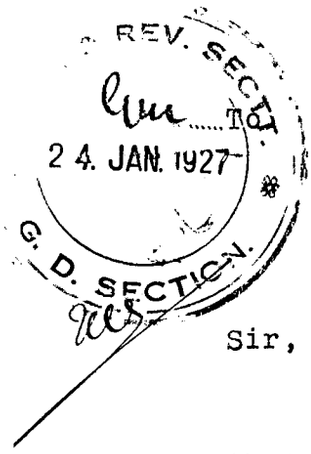
Dated 24th January 1927.

No. Q.C.327.
Enc.

Med 91-25-10

From

Dr. B. Mahomed Usmon, L.M.S.,
Senior Surgeon in Mysore, Bangalore.



The General Secretary
to the Government of His Highness
the Maharaja of Mysore, Bangalore.

Sir,

I have the honour to bring to the notice of Government that an officer trained in up-to-date X-Ray work and another in Surgery of the Thorax are the most urgent necessities of the Department at present. As regards training an officer in X-Ray, my recommendation has already been submitted to Government.

2. I have also alluded, in para 8 of my letter No.Q.C.3[illegible] dated 12th May 1926, to the fact that surgery of the Thorax is becoming more and more recognised in the treatment of cases of Tuberculosis in particular conditions and that it is desirable to have in the Princess Krishnajammanni Sanatorium at Mysore, an Officer who has undergone special training in this branch of Surgery. Mr. Y. N. Krishnamurthi who was then intended by me to be sent to England, is short of hearing and I find that this defec will be a serious handicap to him.

3. I therefore propose the deputation of Assistant Surgeon Mr. B. Jayaram Naidu to England to undergo training in Surgery of the Thorax. Mr. Jayaram has, since the commencement of his service, been working in the Victoria Hospital, with the exception of about a year when he was posted to the Krishnaraja-sagara works. He has also been Demonstrator in Anatomy in the Medical College and in that capacity has continuously been keeping himself in touch with books on Anatomy. He has been workin in the Throat, Nose and Ear Department and in the Surgical ward of the Victoria Hospital for the past two years and has both
